QA Engineer with 2 years of experience in testing, web scraping and skilled in Python with expertise in database queries and log tracing.

EXPERIENCE

Quality Assurance Engineer   Kathmandu, Bāgmatī, Nepal

Citytech   Jul, 2024 - Sep, 2025

- Involved in inspecting issues on **Dev/QA/UAT** environment.
- Hands on experience on **API** testing with **Postman**
- Streamlined **QA** process by creating complex datasets using **Python**.
- Executed **SQL** queries and managed databases (**Postgresql**).
- Analyzed logs to identify and resolve issues, ensuring system stability.
- Raised critical bugs using JIRA and interacted with the development team for reproducing and resolving issues.

Junior QA/VWR Operator   Kathmandu

IT@HIMALAYA PVT. LTD (PROCIT B.V)   Feb, 2023 - Feb, 2024

- Developed **Python** and **Selenium** scripts for data extraction, filtering, and processing large datasets.
- Performed regression, functional, non-functional, and UI testing on software applications.
- Created Test Cases, logged Bug Log in **JIRA**, generated QA Reports.
- Trained new QA hire, accelerating their ramp-up time by providing hands-on guidance on the company's testing tools and processes.

QA/VWR Intern   Kathmandu

IT@HIMALAYA PVT. LTD (PROCIT B.V)   Nov, 2022 - Feb, 2023

- Developed simple web scraping scripts using **Selenium** and **Python**.
- Applied various testing techniques on real-world web applications.
- Gained experience in bug identification and reporting.
